

Capabilities Statement

Core Competencies

Natural Language Understanding and AI

- Full Stack NLP Pipelines (50+ languages)
- Language Models (PyTorch, TensorFlow)
- Semantic & Pragmatic Analytics
- Reasoning and Knowledge Driven NLU

Security-Development-Operations (SecDevOps)

- Secure On Prem or Cloud Deployment
- Security as Code (SaC) – Rust, Java, Python
- Infrastructure as Code (IaC)
- Secure SaaS & DaaS

Knowledge & Semantic Technologies

- OWL, RDF, SPARQL
- Knowledge Graphs
- Graph Neural Networks
- Neural Reasoning Models

IT Support

- Software as a Service (SaaS)
- Microservices and RESTful APIs
- On Prem and Cloud Services
- Systems Integration

Cloud Engineering

- Containers (Red Hat OpenShift, Kubernetes, Docker)
- SaaS High-Performance Services
- Distributed Systems & Microservices

Consulting

- Data Management, Curation, Pre-processing
- NLP/NLU Engineering
- Machine Learning & Data Science
- Knowledge Graph Technologies and Applications

Differentiators

Company Information

NAICS (* primary)
